May 23, 1925.

Mrs. Ladaska A. Collier,
575 15th & Colorado Ave.,
San Francisco, Cal.

My dear Mrs. Collier:

Your letter of January 19th came to hand and I have thought many times that I would write you, but it seemed that I was so busy and something would turn up almost every time that I attempted.

I enjoyed your letter very much. All the names in your letter are very common in our families here in this part of America.

I have just written your husband's father in London, England, and enclose herewith a copy of the letter. I presume you will enjoy reading it. I would like to receive more information regarding your husband. You might send me a copy of his naturalization papers, also his photo if you have one. I will return it to you after I have looked at it awhile and perhaps had a copy made.

When you write me again kindly give me your exact address very plainly written as I am not sure that I have it right on this envelope.

With most sincere regards and good wishes, I beg to remain

Yours very truly,

J. C. COLLIER.
